

# Estevan Rodriguez

## Full Stack Web Developer | Software Engineer

Riverside, CA | 909-653-2446 | [estevan.rodriguez215@gmail.com](mailto:estevan.rodriguez215@gmail.com) | Website: <https://estevan-dev.netlify.app/>

LinkedIn: <https://www.linkedin.com/in/estevanr215/> | github: <https://github.com/Esterod215>

## TECHNICAL SKILLS

---

**Front End:** React.js, Redux, React Hooks, Context API, Axios, TypeScript, JavaScript, HTML, CSS, Jest, TailwindCSS, Next.js

**Back End:** Node.js, Express, SQL, PostgreSQL, Docker, Python, Java, Freemarker, Relational Databases

**Additional:** Agile Project Management, Algorithms/ Data Structures,, Debugging, Deployment, Git, SEO, Google Search Console, Bilingual (English, Spanish)

## EXPERIENCE/PROJECTS

---

**Liferay, Software Engineer- Diamond Bar, CA - [Website](#)**

**2020-2022**

- Developed engaging and modern websites using technologies like HTML, CSS, JavaScript, and React, along with utilizing Liferay's own APIs and systems. Contributed to the following sites: Liferay.com, Liferay Marketplace, Liferay Learn, and Liferay Online. Ensured sites had the same quality across all relevant browsers and screen sizes.
- Collaborated with various teams and departments to unify different ideas on software and architecture. Learned to ask questions and contribute to conversations to provide new ideas which helped me advance my technical knowledge and earn a promotion.
- Aided in the construction of Liferay's backend infrastructure by building Web APIs using nodeJS and Java based architecture.
- Quickly adapted and contributed to a large codebase which allowed the team to consistently surpass deadlines set by management which earned us team of the month for December 2021.
- Participated in code reviews that elevated my ability to write clean, scalable, and performant code, as well as gain strong technical communication skills.

**Bloomtech Institute of Technology, Software Engineer Teaching Assistant - Remote**

**2019-2020**

- Personally oversaw the learning of 12-15 students at a time. Ensured they mastered web development topics and technologies such as HTML, CSS, JavaScript, React, nodeJS, Redux, Relational Databases and much more as required by the school curriculum. Consistently received praise for breaking down complex topics and earned an 100% approval rating by the students.
- Organized and hosted daily standups and presentations to ensure students had an outlet to communicate and get help on various topics which led to my classes having a 75% or more passing rate each quarter.

**Comfy Sloth, Project - React | React Hooks | Netlify | Stripe | Auth0 | [GitHub](#) | [Website](#)**

- Created an e-commerce website utilizing modern React development tools and practices where a user can browse different kinds of furniture, add them to a cart, and checkout using a mock credit card using stripe APIs.
- Developed sign-in/sign-out functionality using Auth0 and restricted checkout functionality to logged-in users.
- Handled large application state by leveraging React Context API, and utilized Styled Components for site styling.

## EDUCATION

---

**BloomTech - Graduate of the Full Stack Web Development Program**

**2018 - 2019**

**University of California, Riverside - Bachelor of Science in Computer Science**

**2015 - 2019**
